WHO WE ARE

A dependable, straight-dealing supply partner for Pakistan's food trade

Shahensha Enterprises is a Sindh-based import and trading house for food commodities — pulses and spices — together with packaging materials, serving the trade across Pakistan since 2021.

We buy from every major producing origin, so our customers are never tied to one harvest or one market. Each consignment is matched to the buyer's requirement, handled with care, and delivered when promised. One partner, one call, a full basket of staples.

We buy at origin, arrange shipment and clearance, and supply the domestic trade — mills, wholesalers, packers and retailers. Our range covers pulses and spices, and we add packaging materials so customers can source product and packing from one desk.

MESSAGE FROM THE MANAGING DIRECTOR

Judge us by our next delivery

**Founder &
Managing Director**SHAHENSHA ENTERPRISES •
EST. 2021

“When I founded Shahensha Enterprises in 2021, I had one conviction: the trader who keeps his word earns the market's trust, and trust is the only lasting advantage in commodities.”

Daal, chana and spices are not luxuries in Pakistan — they are the daily table of every household. Behind each of those meals is a long chain of farmers, shippers, millers and shopkeepers. Our job is to make our link in that chain the strongest one: the right product, at a fair price, on the day it was promised.

We have built this business on long-term relationships rather than one-off deals. We work with suppliers across the world's producing regions, we stay close to our customers' needs, and we answer for every consignment we deliver. Growth matters to us, but never at the cost of our name.

To our partners, thank you for your confidence. To those who are yet to work with us, I invite you to judge us by our next delivery.
